

INSERTI PPU + VORTEX BAR

SPECIAL **KIT Action**

Inserti PPU con Vortex Bar
Kit per barenatura di precisione
(inclusa finitura con taglio interrotto
e barenatura pareti sottili)

INSERTI PPU CON VORTEX BAR

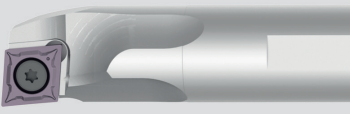

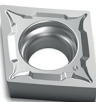

nikkoTOOLS
SORMA CUTTING SOLUTIONS

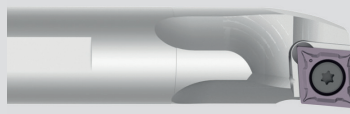

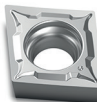

**SPECIAL
KIT**

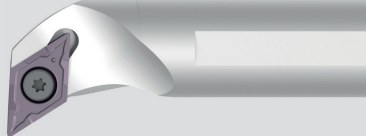

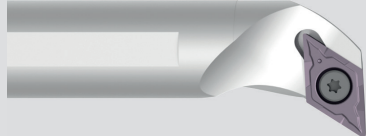

Prova Vortex Bar + inserti PPU!

Ogni kit contiene 4 Vortex Bar e 10 inserti PPU

Perché scegliere Vortex Bar?

- Migliora l'evacuazione del truciolo
- Riduce le vibrazioni anche ad elevate sporgenze (max 5xD)
- Canali di refrigerazione interna nell'intera gamma

Perché scegliere inserti PPU?

- Geometria con basse forze di taglio, affidabile, non deforma i pezzi e riduce le vibrazioni nelle operazioni di barenatura
- Grado resistente al calore, specifico per inox e super leghe, affidabilità costante
- Combinazione ottimizzata della geometria e del grado per affrontare molteplici sfide, come la barenatura interrotta interrotta di precisione di pareti sottili
- Soluzione universale, dalle lavorazioni più esigenti a quelle convenzionali
