## Yöneticinin Mesajı

**Dear Valued Business Partners,**

***This new catalog we are sharing with you is more than just a product list to us; it is a reflection of our shared future that we have built together, nurtured with hard work, and strengthened day by day. It gives me immense joy to see how the dreams we envisioned back in 2004, in that small 50-square-meter workshop, have transformed into a grand reality today through your trust.***

***We understand very well the challenges you face on the production floor, the effort you put in, and the pride of finishing a precision job without error. Because we, too, have reached this point by sweating over the same workbenches with that very same excitement. That is why we work tirelessly to make your job easier and to increase your productivity.***

***In this new period, we have listened closely to your requests and the needs of the industry. Working day and night with our R&D team, we have added more than 1,000 new products to this catalog. With our product range now exceeding 7,000 types, we are here to be your closest solution partner in your most demanding projects, just as we have always been.***

***If SMOXH reaches every corner of the world today, the greatest share of this success belongs to your belief in us. For us, the greatest gain is your satisfaction and the unbreakable bridges of friendship we have built together. I hope our new products bring abundance to your workshops and ease to your work. I want you to know that we are always by your side.***

***With my warmest regards and sincere respect,***

**Mustafa ŞİMŞEK**  
**Chairman of the Board, SMOXH Cutting Tools**

**Değerli Yol Arkadaşlarım ve Kıymetli İş Ortaklarım,**

***Sizlerle paylaştığımız bu yeni katalog, bizim için sadece bir ürün listesi değil; birlikte büyüttüğümüz, emek verdiğimiz ve her geçen gün daha da güçlendirdiğimiz ortak geleceğimizin bir yansımasıdır. 2004 yılında 50 metrekarelik o küçük atölyede yola çıkarken kurduğumuz hayallerin, bugün sizlerin güveniyle nasıl dev bir gerçeğe dönüştüğünü görmek bana büyük bir mutluluk veriyor.***

***Biz, sizin üretim sahasında yaşadığınız zorlukları, verdiğiniz emeği ve o en hassas işi hatasız bitirmenin gururunu çok iyi biliyoruz. Çünkü biz de aynı heyecanla, aynı tezgahların başında ter dökerek bugünlere geldik. İşte bu yüzden, işinizi kolaylaştırmak ve verimliliğinizi artırmak için durmadan çalışıyoruz.***

***Bu yeni dönemde, sizlerden gelen talepleri ve sektörün ihtiyaçlarını can kulağıyla dinledik. AR-GE ekibimizle gece gündüz demeden çalışarak, bu kataloğumuza 1000'den fazla yeni ürün ekledik. Toplamda 7.000'i aşan ürün çeşidimizle, her zaman olduğu gibi bugün de en zorlu projelerinizde en yakın çözüm ortağınız olmak için buradayız.***

***SMOXH bugün dünyanın dört bir yanına ulaşıyorsa, bu başarıda en büyük pay sizlerin bize olan inancıdır. Bizim için en büyük kazanç, sizlerin memnuniyeti ve kurduğumuz bu sarsılmaz dostluk köprüleridir. Yeni ürünlerimizin tezgahlarınıza bereket, işlerinize kolaylık getirmesini diliyorum. Her zaman yanınızda olduğumuzu bilmenizi isterim.***

**Gönül dolusu selam ve sevgilerimle,**

**Mustafa ŞİMŞEK**  
**SMOXH Kesici Takımlar Yönetim Kurulu Başkanı**

## About Us

### Corporate Strength and Vision

Our journey, which began in 2004 under the leadership of our founder, Mustafa ŞİMŞEK, in a 50 m<sup>2</sup> area, continues today in our modern 15,000 m<sup>2</sup> facilities as one of the leading brands in the cutting tool industry. At SMOXH Cutting Tools, we have adopted continuous R&D and technological investment as our core philosophy since the day we were founded. This commitment has positioned us as a preferred solution partner in both national and international markets.

### Technological Capacity and Product Diversity

With our team of engineers and 120 experienced personnel, we manufacture over 7,000 different products, primarily focusing on cutting insert clamping equipment for CNC lathes and milling machines. With this high production capacity and wide product range, SMOXH offers fast and precise solutions even for the most complex demands in the sector.

### Global Success and Competitive Advantage

The foundation of SMOXH's globally recognized brand status lies in our strategy to achieve the highest level in cost and quality. Thanks to this competitive advantage, 60% of our production reaches end-users all over the world, especially in the European market. We have also secured a significant share of the Turkish market, generating strong demand. Through strategic investments, SMOXH has become not just a follower, but a trendsetter in the industry, both in Turkey and globally.

### Investing in the Future: SMOXH Academy

We are aware that success is not solely about production. Through our investments in education and contributions to social responsibility projects, we support the development of a qualified workforce for the future. The SMOXH Academy, established within this scope, makes a significant contribution to raising new generations who will add value to our sector and our country.

### Success Through Collaboration: The "WE" Philosophy

At SMOXH Cutting Tools, we believe that the key to success is the "WE" rather than the "I" philosophy. On this occasion, we sincerely thank all our dealers, our valued customers, and most importantly, our colleagues who walk this path with us, for their contributions to this great success.

SMOXH Cutting Tools

## Hakkımızda

### Kurumsal Güç ve Vizyon

2004 yılında kurucumuz Mustafa ŞİMŞEK liderliğinde, 50 m<sup>2</sup>'lik bir alanda başlayan yolculuğumuz, bugün kesici takım sektörünün öncü markalarından biri olarak 15.000 m<sup>2</sup>'lik modern tesislerimizde devam etmektedir. SMOXH Kesici Takımlar olarak, kurulduğumuz ilk günden itibaren sürekli AR-GE ve teknolojik yatırımı temel felsefemiz haline getirdik. Bu kararlılık, bizi hem ulusal hem de uluslararası pazarda tercih edilen bir çözüm ortağı konumuna taşımıştır.

### Teknolojik Kapasite ve Ürün Çeşitliliği

Mühendis kadromuz ve alanında tecrübeli 120 personelimizle, CNC torna ve frezeler için kesici uç bağlama ekipmanları başta olmak üzere, 7.000'i aşkın ürün çeşidiyle üretim yapmaktayız. SMOXH, ulaştığı bu yüksek üretim kapasitesi ve geniş ürün yelpazesi ile sektörün en karmaşık taleplerine dahi hızlı ve hassas çözümler sunmaktadır.

### Küresel Başarı ve Rekabet Avantajı

SMOXH'un küresel çapta tanınan bir marka olmasının temelinde, maliyet ve kalitede en üst seviyeyi yakalama stratejimiz yatmaktadır. Bu rekabet avantajı sayesinde, üretimimizin %60'lık kısmını başta Avrupa pazarı olmak üzere dünyanın dört bir yanındaki son kullanıcılarla buluşturmaktayız. Türkiye pazarında da sektörün önemli bir payını alarak güçlü bir talep oluşturmuş durumdayız. SMOXH, yaptığı stratejik yatırımlarla sektörün sadece takipçisi değil, aynı zamanda yön veren haline gelmiştir.

### Geleceğe Yatırım: SMOXH Akademi

Başarının sadece üretimden ibaret olmadığını bilincindeyiz. Eğitime yaptığımız yatırımlar ve sosyal sorumluluk projelerine katkımızla, geleceğin nitelikli iş gücünü destekliyoruz. Bu kapsamda kurulan SMOXH Akademi, sektörümüze ve ülkemize değer katacak yeni nesillerin yetişmesine önemli bir katkı sunmaktadır.

### Birlikte Başarı: "BİZ" Felsefesi

SMOXH Kesici Takımlar olarak, başarının anahtarının "ben" değil, "BİZ" anlayışından geçtiğine inanıyoruz. Bu büyük başarıda emeği geçen tüm bayilerimize, değerli müşterilerimize ve en önemlisi bu yolda bizimle yürüyen tüm çalışma arkadaşlarımıza yürekten teşekkür ederiz.

# A System

## JetBar

For smooth chip evacuation  
special overflowed  
chip evacuation  
channels.

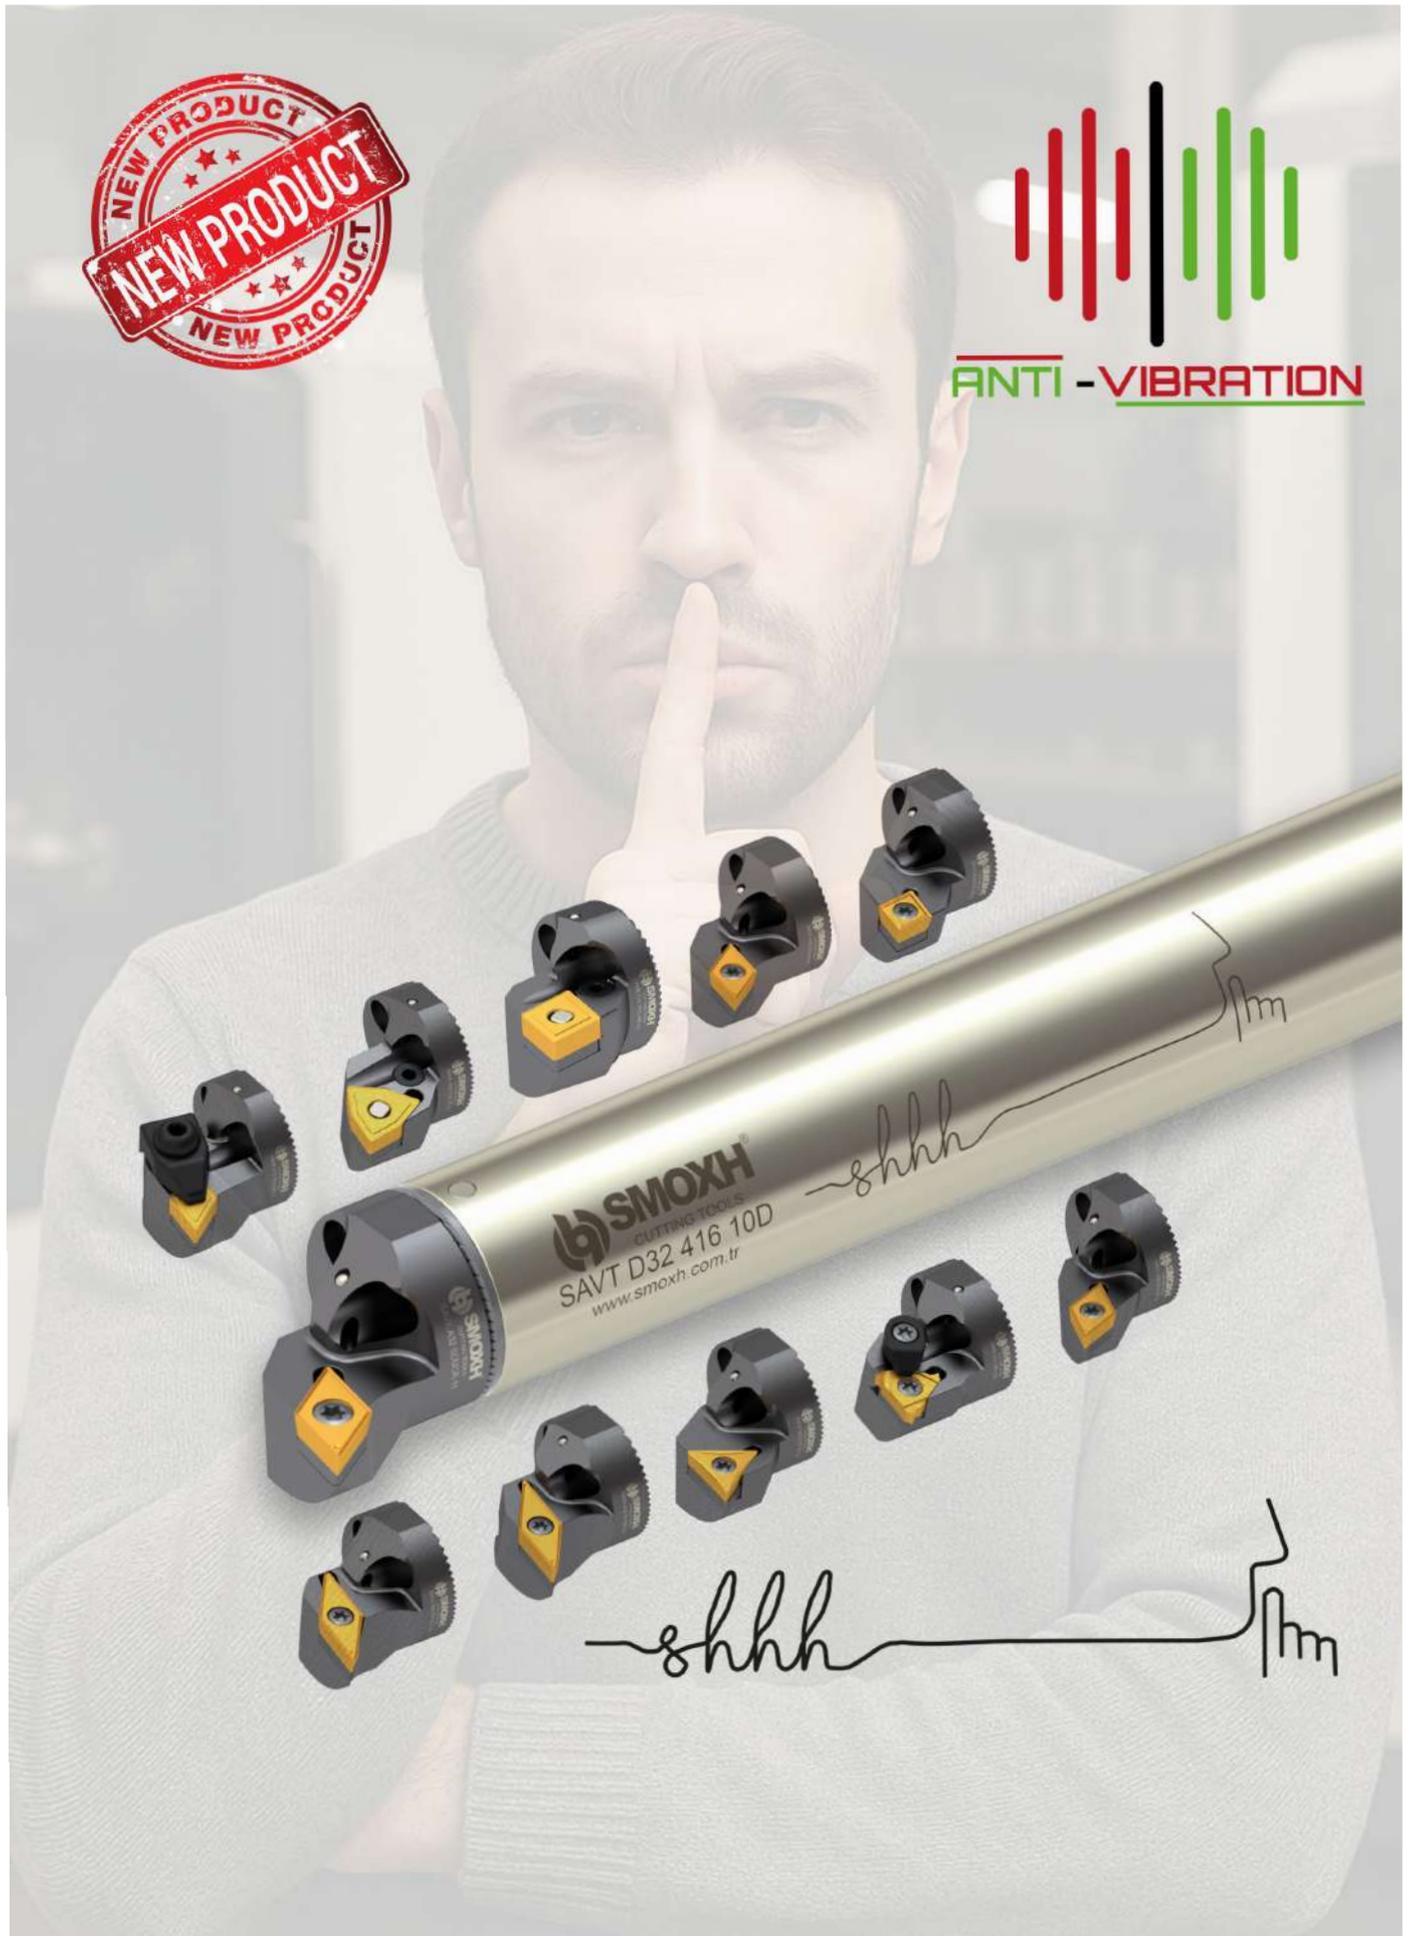

For chip breaking  
improved chip  
breaker form.

Insert life  
effective direct  
liquid cooling hole.

- Perfect insert bearing.
- **Aerodynamic structure.**
- Special steel developed against deflection and vibration.
- **Special surface hardness developed for long tool life.**

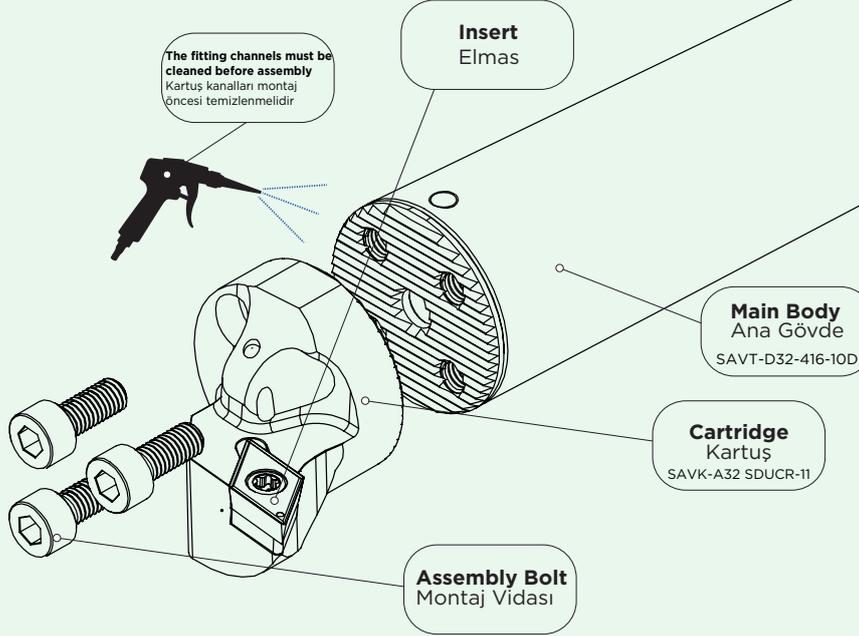

**SMOXH**<sup>®</sup>  
CUTTING TOOLS

## User Manuel / Kullanım Klavuzu

### Main Details / Detaylar

### Holder Block Installation / Tutucu Blok Kurulumu

- Sufficient clamping length extends tool life and ensures precision.
- Equal tightening torque should be applied during clamping, and manufacturer recommendations should be followed.
- Clamping surfaces should be clean and free of swarf.
- Shorter clamping increases the risk of vibration and negatively affects machining quality.
- The tool shank should be clamped for a minimum of 4xD (four times the diameter length).
- Yeterli bağlama boyu, takım ömrünü uzatır ve hassasiyet sağlar.
- Bağlama sırasında eşit sıkma torku uygulanmalı, üretici önerileri dikkate alınmalıdır.
- Bağlama yüzeyleri temiz ve talaştan arındırılmış olmalıdır.
- Daha kısa bağlama, titreşim riskini artırır ve işleme kalitesini olumsuz etkiler.
- Takım shaftı, minimum 4xD (dört çap uzunluğu) boyunca bağlanmalıdır.

### High Performance Easy Sleeve / Yüksek Performanslı Kovan

- Easy Sleeve (Recommended Sleeve Option)
- Easy Sleeve stands out for its ease and practicality of installation.
- Designed specifically for anti-vibration assemblies to avoid block replacement, these sleeves save time thanks to their quick installation features.

#### Advantages:

- Easy and quick installation
- Practical use and low maintenance requirements

- Easy Kovan (Önerilen Kovan Seçeneği)
- Easy Kovan, montaj kolaylığı ve pratikliği ile öne çıkmaktadır.
- Özellikle anti-vibrasyon takımlarında blok değiştirmemek amacıyla tasarlanmış bu kovanlar hızlı kurulum özellikleri sayesinde zamandan tasarruf sağlar.

#### Avantajlar:

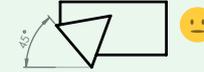

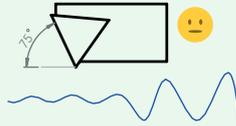

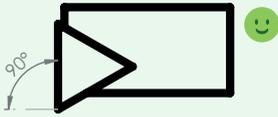

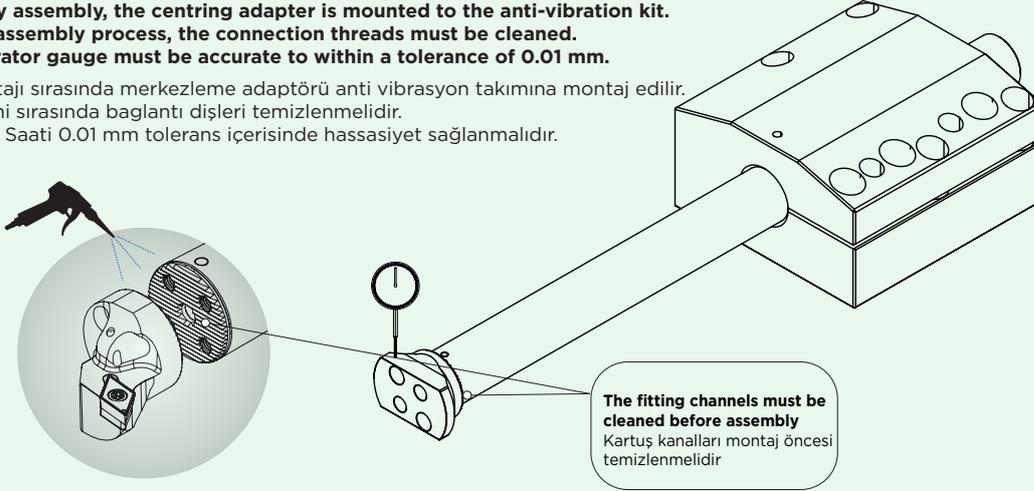

- Kolay ve hızlı montaj
- Pratik kullanım ve düşük bakım gereksinimi

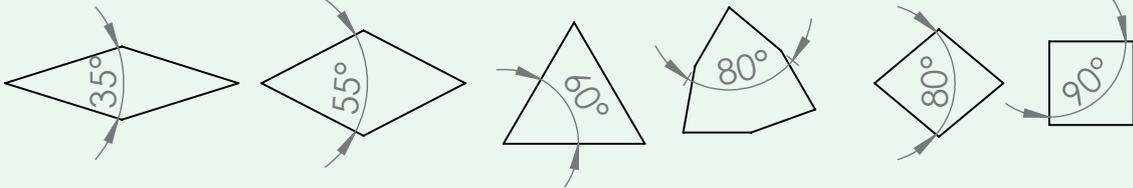

## Center Adjustment Adapter

During body assembly, the centring adapter is mounted to the anti-vibration kit.  
During the assembly process, the connection threads must be cleaned.  
The comparator gauge must be accurate to within a tolerance of 0.01 mm.

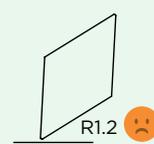

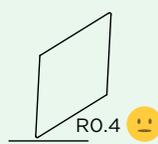

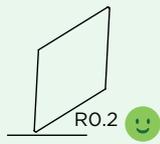

Gövde montajı sırasında merkezleme adaptörü anti vibrasyon takımına montaj edilir.  
Montaj işlemi sırasında bağlantı dişleri temizlenmelidir.  
Komparatör Saati 0.01 mm tolerans içerisinde hassasiyet sağlanmalıdır.

**Choose an entry angle that is as close as possible to 90° to reduce the radial forces to a minimum.**  
Radyal kuvvetleri en aza indirmek için 90°'ye mümkün olduğunca yakın bir giriş açısı seçin.

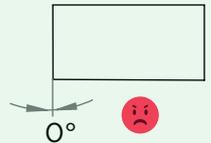

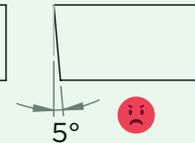

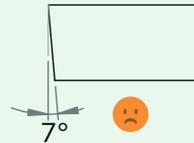

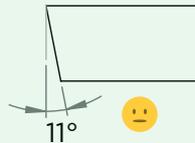

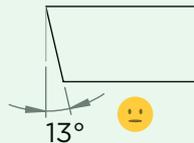

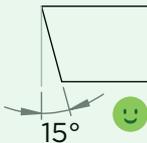

**Choose the smallest insert head angle possible. This will reduce overall cutting force and increase the clearance.**  
Mümkün olan en küçük kesici uç açısını seçin. Bu, genel kesme kuvvetini azaltacak ve boşluğu artıracaktır.

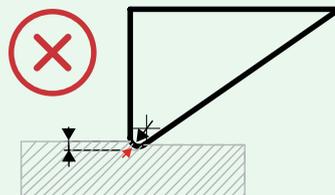

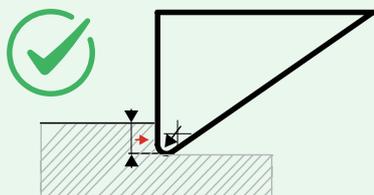

**Choose a small nose radius to reduce the cutting forces and to enable machining in a lower depth of cut.**  
(Depth of cut should be larger than the nose radius)

Kesme kuvvetlerini azaltmak ve daha düşük kesme derinliğinde işlemeyi mümkün kılmak için ince yarıçaplı elmas seçin.  
(Kesme derinliği burun yarıçapından daha büyük olmalıdır)

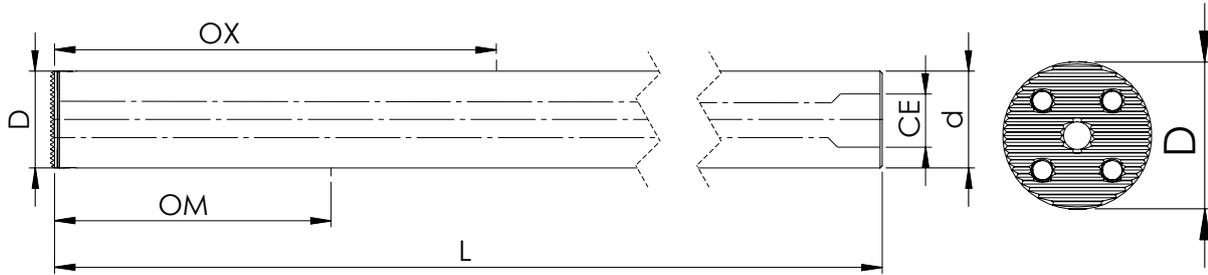

**Use an insert with an overall positive geometry to reduce the cutting forces**

Kesme kuvvetlerini azaltmak için genel olarak pozitif geometriye sahip bir elmas kullanın

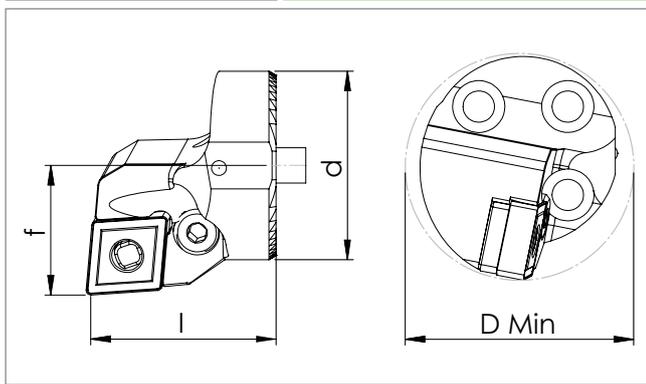

**Machining depth (ap) should be larger than the nose radius**

İşleme derinliği (ap) radüsten daha büyük olmalıdır böylelikle titreşim sönmünecektir

## Advantages of Axial Cutting Disc Milling 2nd Lock Eksenel Kesim Disk Freze 2. Kilitleme Avantajları

### Axial Cutting with 1 and 2 Lock / Kilit 1 ve 2 İle Eksenel Kesim

- Vibration reduction in multiple cuts.
- Stable long-term cutting advantage with easier chip removal.
- Enables you to achieve high (fz) values with low (Vc) values, thus providing lower cutting load.
- Provides high T MAX values.
- Çoklu kesimlerde vibrasyon azaltma.
- Stabil uzun zamanlı kesim avantajı daha kolay talaş tahliyesi.
- Düşük (Vc) değerleri ile Yüksek (fz) değerleri elde etmenizi sağlar böylece daha düşük kesim yükü sağlar
- Yüksek T MAX değerleri sağlar

# FINISH BORING BAR PARTS

**Warning:** Locked points should not be opened by the user.  
Kilitli noktalar kullanıcı tarafından açılmamalıdır.

**Labels:**

- Fixture Lock / Fikstür Kilitleme
- Fixture Holder / Fikstür Tutucu
- Connection Fixture / Bağlantı Fikstürü
- Lubrication Point / Yapılma Noktası
- Locked / Kilitli
- Balance / Balans
- Main Body / Ana Gövde
- Vernier Scale / Vernier Ölçeği
- Slide Clamp Screw / Sürücü Sıkma Vidası
- Coolant Out / Soğutma Çıkışı / Max. 30Bar
- Cutting Direction / Kesme Yönü
- Insert Cartridge / Elmas Kartuşu
- Holding Bolt / Montaj Vidası

**Vernier Scale Detail:**

$\phi 0.002$

**2 $\mu$ m**

**Set the diameter to 0.002mm. Rotate 360°  
Turn the diameter to 0.100mm  
Total fine hole machining head  
Diameter variation 8.00mm**

Çapı 0,002mm ayarlar. 360° dönderme çapını 0,100mm çevirin  
Toplam ince delik işleme kafasında çap değişikliki 8.00mm

**Eccenter Sleeve User Manuel / Eksantrik Kovan Kullanım Klavuzu**

**Lathe / Torna**

**In lathe operations, the drill axis can be brought into alignment with the spindle axis by means of an eccentric sleeve. The alignment range is 0.2 mm; turning the sleeve counterclockwise raises the drill position.**  
Tornada, eksantrik kovan matkabin eksenini, iş milinin eksenine karşı çıkacak şekilde kaydırabilir. Eksantrik kovan, matkabin ekseninin iş mili eksenine karşı 0,2 mm aralığında hizalanmasını sağlar (yükseletmek için kovayı saat yönünün tersine çevirin).

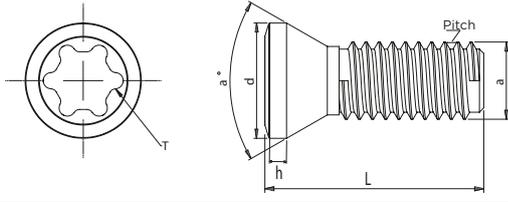

**Mills / Freze**

**In milling operations, the nominal drill diameter can be modified by shifting the drill axis relative to the tool spindle.**  
Freze tezgâhında, matkabin nominal çapı, matkabin ekseninin takım milinden kaydırılmasıyla değiştirilebilir.

**Radial adjustment pin (not supplied)  
Radyal ayar pimi (ürünle birlikte verilmez)**

**To enlarge the diameter, turn the sleeve clockwise  
Çapı büyütmek için Eksantrik Adaptörü saat yönünde çevirin.**
